4.19 (m) Medicaid Reimbursement for Administration of Vaccines under the Pediatric Immunization Program

1928(c)(2) (i) A provider may impose a charge for the administration of a qualified pediatric vaccine as stated in (C)(ii) of the Act. Within this overall provision, Medicaid reimbursement to providers will be administered as follows.

(ii) The State:

— sets a payment rate at the level of the regional maximum established by the DHHS Secretary.

— is a Universal Purchase State and sets a payment rate at the level of the regional maximum established in accordance with State law.

☒ sets a payment rate below the level of the regional maximum established by the DHHS Secretary.

☒ is a Universal Purchase State and sets a payment rate below the level of the regional maximum established by the Universal Purchase State.

The State pays the following rate for the administration of a vaccine:

\$3.30 per administration fee (with a limit of 3 administration fees per recipient, per date of service).

1926 of the Act (iii) **Medicaid beneficiary access to immunizations is assured through the following methodology:**

The state's administration fee was established by using Medicare's administration fee of \$3.28 rounded to the nearest ten (10) cents. The state believes the use of Medicare's fee in combination with Kentucky's KenPAC Program will assure adequate access to immunization.
